

## **PRYSMIAN GROUP FINLAND OY QUALITY POLICY**

**We at Prysmian Group Finland Oy are committed to respecting the following Quality Policy:**

- To consider the Customers' needs as the first priority (Customer Satisfaction).
- To increase company value through the improvement of individual know-how, efficiency and risk-based approach.
- To develop a company culture based on a clear and unambiguous commitment to continuous improvement: challenging targets, continuously monitoring and consequent corrective actions.
- To promote the use of internal best practice inside the Group.
- To adopt the zero defect and right first time approach in all our activities. Put everything under discussion and eliminate the non-value-added activities.
- To follow and maintain ethical rules both internally and externally.
- To maintain and apply ISO 9001 standard and related procedures.
- To involve the whole organization in the quality management policy and in company targets.
